REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record fails to teach a menu displayed during conference and successful reconnection by mobile device after disconnecting from teleconference call having the options of replay of recording of missed part of the teleconference or the option of going back to the conference without hearing the missed part which is done when the disconnected mobile has connected again and before rejoining the teleconference again; the disconnected user has these options to choose from.

Brown et al. in a previous office action disclosed a teleconference system and method for a disconnected mobile device being reconnected back to the teleconference immediately replaying missed part of the teleconference that the disconnected mobile device user did not hear because of disconnection. However, Brown et al. failed to teach the displayed menu on device of options being displayed to the disconnected user when he reconnects or rejoins the services of teleconferencing and chooses whether it would like to hear the recorded part of the missed part of the teleconference or choose to rejoin the teleconference with the rest of the users without hearing the missed part.

Therefore, claims 1-20 are allowed.
